

JA BizTown Jobs

Staffing Model

CALL YOUR JA BIZTOWN MANAGER BEFORE BEGINNING

Directions: The JA Area Office will inform you of the businesses assigned to your school/class. Each student must be assigned to a business and a position. To do this, locate your group size among the categories found at the top of the model, and assign the number of positions for each business as indicated in this category's column.

When the total number of your group falls in the middle of a range, evenly disperse assignments for additional students between jobs with an * (asterisk) in front of them. (For example, you have 76 students and you are working in the 75-79 column. The 76th student would be assigned as an additional employee to one of the jobs with an asterisk. If you had a 77th student, he/she would go to the next job with an asterisk. Only add 1 student to each asterisked job.)

If your group is larger than 120 students, contact JA for additional business and job placement options. Please do NOT add additional students to any position without an asterisk unless approved by JA staff.

Salary	Business Name and Position	70-74	75-79	80-84	85-89	90-94	95-99	100-104	105-109	110-114	115-119	120-124	125-129
